

Plumas Lake Elementary School District

Transportation Department

To: Parents and Bus Passengers

Though not specially required by California Law, student transportation is a special service offered to students by many California School Districts. The information and rules presented here have been developed to insure that student transportation will be dependable and, above all, **Safe**.

The information to parents and student riders is intended to help explain the rules covering district bus service and the reasons for them. Put yourself in the driver's position and you can appreciate the problem. Along with the responsibility, of course, the driver is required to operate a bus safely in traffic. These circumstances require the standard of behavior and procedure necessary to insure this behavior must be effective. The safety of the group cannot be compromised by the inappropriate behavior of any one individual. These rules also require that the students be assigned a specific bus route and a regular designated bus stop. It is important that your son or daughter who rides the school bus reviews the rules and regulations which are attached.

Acceptable student passenger behavior is an important aspect of school bus safety. These rules and disciplinary procedures are essential to help maintain that safety. There are at least (1) bus evacuation training drill during the school year for students riding the bus from home to school **and that may be attending a field trip.**

The walking distance for kindergarten, first, second, third, fourth and fifth grade students is three fourth (3/4) of a mile. The walking distance for sixth, seventh and eighth grade students is one (1) mile. The walking distance for ninth, tenth, eleventh and twelfth grade is two (2) miles. If a child lives further than these distances from the school which they attend, they may be eligible for bus transportation. For a current bus schedule you can go on-line at plusd.org. For more information about bus stops in your area, call the Transportation Department at the following phone number or email ahernandez@plusd.org (530) 742-0981.

Students who ride the bus should be at their bus stop (5) minutes before bus arrival time. All children will need to have their bus pass visible for the driver to see while boarding the bus. Children boarding the bus without their bus pass will be wrote up based on the consequences stated on the back page of this document. Be alert of approaching vehicles. Do not talk to or get in cars with strangers. While waiting at the bus stop, stay out of the road, line up, do not litter or damage property. As the school bus approaches the stop, stay at a safe distance from the bus, at least (12) feet, until the bus stops and the door opens. No pushing or crowding. Use handrail when climbing up the steps. Take first available seat, sit facing forward, keeping feet out of the aisles. When getting off the bus, if students have to cross the road at a bus stop, the bus driver is required to escort pre-kindergarten through eighth (8th) grade students across the road with the red lights flashing. The driver will hold up a hand held stop sign. All traffic must stop. All students crossing the road in which the bus is stopped will always cross in front of the bus between the driver and the front of the bus. **Never behind the bus!**

When getting off the bus, never stand up on the bus until the bus comes to a complete stop and the door opens. Watch your step and use the handrail when getting off bus. Walk away from the bus. The school bus danger zones are the front, side and rear of the bus. Do not play near the bus. Do not touch the bus. Do not crawl under the bus. Do not walk behind the bus. Do not cross in front of bus unless instructed to do so by the bus driver. When getting off the bus on the way home, go directly home or to your after school care. Stay out of the roadway. Be alert for traffic and strangers. Report any problems to the Bus Driver, Teacher, Principal, Parents or the Transportation Office.

Students that ride the bus from home to school in the district are assigned one (1) permanent bus stop. This enables the Transportation Department to compile a student rider list which contains information needed in case of an Emergency. A rider list gives us potential student identification by bus stop in the event that the bus becomes disabled. Students are assigned a permanent bus stop which would be the nearest geographic stop to the students resident address. The parent/guardian may request a stop other than the student's assigned stop. This would become the student's permanent stop. If the student wishes to exit the bus at a different stop other than their permanent stop, written permission from the parent/guardian and site verification are required. The authenticated permission slip is then given to the bus driver confirming that the student would be getting off at a different stop that day. Request for multiple day changes or multiple stops must be cleared through the Transportation Department on a case by case basis.

All phone-in notes must be called into the school site. They need to be written out by a staff member and verified by a site administrator. We don't have accessibility in the Transportation Department to the information that may be necessary for proper authentication of permission slips. This form would be handed to the bus driver when getting on the bus and the student would confirm he/she would be getting off at a different stop that day.

When a student is suspended from a bus, suspension includes all District school buses.

There may be days when school bus routes will be delayed or cancelled due to weather or road conditions, such as dense fog, snow, heavy rains, sleet, hail, strong winds, dust storms and chemical spills, or road conditions are too hazardous. We will put out an all call to notify parents. If the bus is running late you can call the school site or the Transportation Department at 742-0981. Driver would radio the Transportation Department and the school involved would be notified. Poor visibility due to dense fog could cancel transportation services, but schools may remain open for student attendance. These visibility conditions can occur while a bus is on a field trip as well.

Should you have any questions relative to the rules or their implementation you can call or email the Transportation Department at ahernandez@plused.org (530) 742-0981 or fax at (530) 743-1475 .
