

The Plumas Lake Elementary School District will be offering two instructional options for the up and coming school year.

- Regular in person instruction - At this time CDPH is requiring students to be masked while indoors if attending regular in person instruction and PLESD will be following those guidelines. Outside of the indoor masking mandate, the school day will be more like a traditional school day prior to the pandemic. We will continue to monitor masking mandates and will update our community if there are changes introduced by CDHP.
- River Oaks Virtual Academy - The River Oaks Virtual Academy is an online option for students whose health would be put at risk by in-person instruction, as determined by the parent or guardian. This program is an optional educational alternative to in person instruction that is voluntarily requested by the parent. Any parent interested in participating in the program may request a conference to discuss the details of the program prior to enrolling. To request a conference contact the Director of Student Services at 743-4428 ext. 743. Attendees of the program will participate in live interaction (Direct communication between staff and student) and synchronous instruction. (Real time interactive instruction provided by the teacher) Students will also be responsible for completing asynchronous responsibilities. (Independent work) If at any time a parent determines that it would be safe for their child to return to in person instruction, the parent may submit a request in writing to be placed back into an in person classroom. That request will be accommodated within 5 days.
